the art

Our forte is to curate and create the right design for our clients. Exposure to different kinds of paintings may it be abstracts, figurative, landscapes, mixed medium etc., all of them helps us find the right fit for your projects.

An abstract artwork featuring several long, curved strips of paper in white and bright orange, set against a dark red, textured background. The strips are layered and curved, creating a sense of movement and depth. The white strips are more prominent, while the orange strips are interspersed behind them.

AFEH is always taking up a challenge to explore different mediums to produce art from. We've made art works from geometric string art, cane art and dhaga, metal works, stitched canvas art, 3D Cut out art etc.
